WHAT DOES THE LIMITED PARTNERSHIP INVEST IN?

RESCO First Mortgage Fund LP is an alternative lender that caters to a key market segment, such as entrepreneurs with irregular income, recent immigrants with little or no credit history, divorced couples with bruised credit and borrowers unable to obtain mortgage lending from traditional lenders.

The Limited Partnership invests only in first mortgages secured by marketable residential properties located in major CMA (Census Metropolitan Areas), primarily in Ontario. Mortgage terms are typically 6 to 24 months which minimizes real estate price fluctuation risk, interest rate risk and duration risk.

MARKET OVERVIEW

More Stable Real Estate Market Anticipated

The Bank of Canada is expected to reduce its overnight rate at the upcoming September meeting, bringing it down to 4.25%, the lowest level since spring 2023.

While these rate cuts will improve housing affordability, the immediate impact on the housing market is likely to be limited. A more significant drop in the key interest rate is necessary before the real estate market sees a substantial boost. However, there is positive news: most economists expect the central bank's rate to fall continuously to below 3% by the end of 2025. With this substantial decrease, a more stable and balanced real estate market is anticipated by spring 2025.
